ABSTRACT

This study of educational costs reflects the undergraduate and graduate costs incurred by Washington State public institutions of higher education during the 1989-90 fiscal year. The study's examined cost factors and cost distribution ratios for each public higher education institution in the state in order to establish tuition and fee ratios. Data reports are presented from the following institutions: University of Washington; Washington State University; Central Washington University; Eastern Washington University; The Evergreen State College; Western Washington University; and Washington Community Colleges. The data from each school are displayed by discipline and level, along with information on direct and indirect costs per full-time student, enrollment data, and student/faculty ratios. Cost data include findings that the average instructional costs for undergraduate study were \$5,675 per average annual full-time equivalent (AAFTE) student attending the research institutions; \$5,402 per AAFTE attending comprehensive institutions; and \$3,468 per AAFTE at community colleges. The average overall instructional costs per AAFTE, when factoring in the costs for graduate study, were \$7,104 for research institutions and \$5,656 for comprehensive schools. An appendix contains the Classification of Instruction Programs codes as published by the National Center for Education Statistics in 1981. (GLR)

PREFACE

The following study of educational costs reflects the undergraduate and graduate costs experienced by Washington State public institutions of higher education during the 1989-90 fiscal year.

The results for each institution are displayed by discipline and level, along with information on direct and indirect costs per full-time student, enrollment data, and student/faculty ratios.

The primary purpose of the education cost study is to determine cost factors and cost distribution ratios for each public higher education institution in order to establish tuition and fee rates.

While every effort was made to establish procedures that would ensure consistency in the reporting processes at each institution, inherent differences between institutions may cause cost variances between institutions, especially at the discipline level. Other factors such as size, internal budgetary or academic policies, and other institutional characteristics impact these educational costs as well. Direct comparisons between institutions at the discipline level are not advised.

1989-90 EDUCATION COST STUDY
GLOSSARY

AAFTIE: Average Annual Full-Time Equivalent

AAFTIE Faculty: Average Annual Full-Time Equivalent Faculty (AAFTIE FAC) pertains to academic instruction staff employed for an academic year as defined by the institution. (Typically, a nine-month contract equals 1.0 Faculty FTE.) Faculty data do not include teaching assistants.

AAFTIE Student: Average Annual Full-Time Equivalent Student. Calculated by dividing the average annual student credit hours (AASCH) generated during the academic year by 15 for undergraduates and by 10 for graduates.

AAFTIE Teaching Assistant: Average Annual Full-Time Equivalent Teaching Assistant (AAFTIE TA) is defined as a teaching assistant employed 40 hours a week. Typically a teaching assistant's work week is 20 hours equaling .50 FTE.

AASCH: Average Annual Student Credit Hours. Student credit hours are converted to average annual student credit hours (AASCH) to ensure uniform reporting between quarter, semester, and community college systems.

Academic, 1st Year/2nd Year: The community college course level designation for academic classes.

Academic Year: The academic calendar used by each institution. The Community College system uses four quarters; University of Washington, Eastern Washington University, Central Washington University, The Evergreen State College, Western Washington University, three quarters; Washington State University, two semesters.

CC's: The community colleges. Comprised of twenty-seven campuses in twenty four districts.

CIP Code: Classification of Instruction Programs code. Federal classification system which assigns a six digit number to individual courses (e.g., applied mathematics, statistics) which are aggregated into discipline designations (e.g., mathematics). For a complete listing, see Appendix 1.

Comprehensive Universities: The three four-year universities in Washington offering bachelor and masters degrees: Central Washington University, Eastern Washington University, and Western Washington University.

Direct Costs: Expenditures such as salary and wages, equipment, and materials specifically identified with the program, project, or activity.

Discipline Area: Academic disciplines (e.g., mathematics) categorized into groups or areas (e.g., science) for the purpose of the Education Cost Study. For a complete listing, see Appendix 1.

ECS: Education Cost Study performed by the Higher Education Coordinating Board for fiscal year 1989-90.

FAA: Faculty Activity Analysis. Reporting instrument used by faculty members to delineate instructional effort by discipline, program, and academic level.

Faculty FTE: Faculty full-time equivalent. See AAFTE Faculty.

Fund Source: Numerical coding structure used by the state of Washington to distinguish the origin of funds that limit the types of expenditures permitted.

001	-	General Fund-State
149	-	General Local
148	-	Dedicated Local
145	-	Grants and Contracts
02K	-	Death Investigation Account (UW)
505	-	University Hospital Account (UW)
608	-	Medical Aid/Accident (UW)
609	-	Medical Aid Account (UW)

Grad I: Data for courses at the 500 (Master's degree) level.

Grad II: Data for courses at the 600 (Doctoral or Ph.D.) level.

Indirect Costs: Support costs which cannot be specifically identified with a program or project, but which are part of total costs. As reflected in the ECS, most indirect costs are funded in the following support programs: Primary Support (040); Libraries (050); Student Services (060); Institutional Support (080); Plant Operation and Maintenance (090).

LD: Lower Division. Data for courses at the 100-299 (undergraduate) level.

Pre-College: Classes offered at the community colleges for students with below college level skills. Typically adult basic education (8th grade level), G.E.D. or high school diploma, and English as a second language. Credits are not applicable toward an Associate of Arts degree.

Primary Programs: The state budgeting structure provides ten major program categories which are used by higher education institutions. For the purposes of the ECS, the following programs are designated as primary: Instruction (010); Research (020); Public Service (030); Hospitals (070); Sponsored Programs (100).

Research Universities: Pertains to the University of Washington and Washington State University, the two public institutions offering doctoral programs in Washington .

SBCCE: State Board for Community College Education.

SCH: Student Credit Hours. These are converted to average annual student credit hours (AASCH) to ensure uniform reporting between quarter, semester and community college systems.

S/F: Student/Faculty ratio. Calculated by dividing the number of AAFTE students by the number of AAFTE faculty.

SSFTE Student: Summer Session Student Full-Time Equivalency. Calculated by dividing the credit hours generated during the summer session by 15 for undergraduate and by 10 for graduate.

Student AAFTE: Student Average Annual Full-Time Equivalent.

Support Programs: The state budgeting structure provides ten major program categories which are used by higher education institutions. For the purposes of the ECS, the following programs are designated as support: Primary Support (040); Libraries (050); Student Services (060); Institutional Support (080); Plant Operation and Maintenance (090).

UD: Upper Division; data for courses at the 300-499 (undergraduate) level.

Vocational/Technical: Category of course work offered at the community colleges in addition to academic and basic skills. Generally these are courses directed toward providing skills and knowledge pertaining to specific employment opportunities.

1989-90 EDUCATION COST SUMMARY RESULTS

The Higher Education Coordinating Board is required by statute to determine by November 10 of each even-numbered year amounts constituting "approved undergraduate and graduate educational costs" which serve as the basis for general tuition fees for the next biennium. From the reported data, ratios are established which are then applied to enrollments and funding levels for the current biennium in order to determine tuition and fees calculations for the next biennium.

The 1989-90 Education Cost Study provides detailed instructional cost information by level and discipline area for each institution to be used for tuition and fee calculations.

The following table (Table 1) delineates total instructional costs per average annual full-time equivalent student (AAFTE) for each institution, and weighed average for each sector. Also included are the related ratios used for tuition and fee purposes.

Table 1: TOTAL INSTRUCTIONAL COST PER AAFTE STUDENT AND RATIOS

<u>Research Institutions:</u>	<u>Undergraduate</u>	<u>Graduate</u>	<u>Average</u>
			<u>All</u>
University of Washington	\$5,959	\$12,949	\$ 7,540
Washington State University	5,257	14,536	6,373
Average Costs:	\$5,675	\$13,332	\$ 7,104

Research Institution Ratios:

Ratio of Undergraduate Costs per FTE to Total Average Costs per FTE 79.89%
Ratio of Graduate Costs per FTE to Total Undergraduate Costs per FTE 234.92%
Ratio of Instructional Indirect Costs to Total Indirect Costs 68.80%

<u>Comprehensive Institutions*</u>	<u>Undergraduate</u>	<u>Graduate</u>	<u>Average All</u>
Central Washington University	\$5,573	\$ 9,664	\$ 5,746
Eastern Washington University	5,408	9,958	5,777
Western Washington University	5,268	10,332	5,487
Average Costs:	\$5,402	\$10,006	\$ 5,656

Comprehensive Institutions' Ratios:

Ratio of Undergraduate Costs per FTE to Total Average Costs per FTE	95.50%
Ratio of Graduate Costs per FTE to Total Undergraduate Costs per FTE	185.24%
Ratio of Instructional Indirect Costs to Total Indirect Costs	93.90%

Community Colleges

Lower Division

Average Cost per FTE:

\$3,468

Total instructional costs are comprised of both direct and indirect costs relating to state supported instructional programs. Direct costs include faculty salaries and benefits, support personnel, and other costs directly attributable to a program. Indirect costs include costs such as administration, student services, facilities, and other costs not directly attributable to a specific program, but which are an integral part of total program costs.

The ratios resulting from the study depict the relationships between total undergraduate costs per FTE to institutional average costs per FTE; total graduate costs per FTE to total undergraduate costs per FTE; and instructional indirect costs to total indirect costs.

*In accordance with statute, the education cost base for tuition and fees at the comprehensive institutions does not include The Evergreen State College. For general information purposes, however, cost detail for TESC has been included in the tabular section of this report.

In 1988, a similar cost study was conducted using 1986-87 expenditure data. Table 2 displays the 1986-87 ratios and compares these ratios with those derived from the 1989-90 cost study. Shifts in any of these ratios would indicate a reallocation of resources to or from undergraduate programs, to or from graduate programs, or the reallocation of indirect costs to or from instructional programs. Although the total budget has increased and, therefore, the institutions have experienced a subsequent increase in total educational costs, the ratios used to determine tuition and fee calculations have not experienced significant shifts.

Table 2: COMPARISON WITH 1986-87 ECS RATIOS

<u>Research Institution Ratios:</u>	<u>1986-87 Ratios</u>	<u>Change From 1987</u>
Ratio of Undergraduate Costs per FTE to Total Average Costs per FTE	79.90%	- .01%
Ratio of Graduate Costs per FTE to Total Undergraduate Costs per FTE	235.00%	- .08%
Ratio of Instructional Indirect Costs to Total Indirect Costs	67.90%	+ .90%
 <u>Comprehensive Institutions' Ratios:</u>		
Ratio of Undergraduate Costs per FTE to Total Average Costs per FTE	96.20%	- .70%
Ratio of Graduate Costs per FTE to Total Undergraduate Costs per FTE	189.08%	- 3.84%
Ratio of Instructional Indirect Costs to Total Indirect Costs	94.84%	- .94%

23

INTRODUCTION TO THE ECS DATA

Background

The Higher Education Coordinating Board's educational cost study provides a direct link between the state cost of education at Washington institutions and the tuition fees paid by students at those institutions. Student tuition fees (composed of building fees and operating fees) are currently based upon a percentage of total undergraduate instructional costs, with the percentage varying by type of institution.

The current process for determining per student costs dates back to 1977. The 1976-77 Cost Data Reporting Manual for the Unit Expenditures Study included the definitions and the criteria used in the study of educational costs, and indicated procedures for applying the results of the study to establish tuition fees for the next biennium. Similar guidelines have been prepared and used for all subsequent cost studies.

In 1986, legislation was adopted that requires tuition fees, while established biennially, to reflect annual adjustments. Through the 1987-89 biennium, tuition rate calculations were based upon the ratios determined by the 1978-79 Unit Expenditure Study. In 1987 a new cost study was conducted that established factors used in determining tuition fees for the 1989-91 biennium.

In 1989, the Legislature directed the Higher Education Coordinating Board to perform an educational cost study every fourth academic year beginning with 1989-90. In addition, the Legislature required that a faculty activity analysis or similar instrument be used as the basis in determining faculty cost

distribution. Each institution developed and used a faculty activity analysis for the 1989-90 Education Cost Study.

Methodology

The HECB was directed by the Legislature to ensure consistent reporting across all institutions. In order to do so, the HEBCB developed detailed cost allocation and cost reporting procedures to be used uniformly by all institutions. A manual was provided to each institution and was used as the guideline for reporting the cost data. The State Board for Community College Education was provided a separate manual tailored especially for the community colleges.

Each four-year institution developed a faculty activity analysis report used in determining faculty cost distribution. The purpose of the faculty activity analysis is to distribute faculty workload and associated state-supported costs by discipline, program, and academic level, thereby presenting a representation of where instructional efforts are applied. The HEBCB staff reviewed the faculty activity analysis instruments used by the institutions in order to ensure consistent results for all institutions. In addition, individual faculty activity reports were reviewed and approved by the departmental chair.

As an added control, each institution was required to report all costs from budgeted funds. These costs were then compared with state accounting documents in order to verify that all expenditures, including those not used in the tuition and fee base, were reported in the cost study.

Educational costs used to determine the 1989-91 tuition fees cost base include the following:

- (1) Direct instruction costs such as salaries and fringe benefits of instructional staff, support personnel such as laboratory assistants, supplies, equipment, etc.;
- (2) Other instructional related costs such as admissions, registration, and other student services not financed by service and activities fees;
- (3) A proportional share of such indirect costs as libraries, administration, facilities operation and maintenance, etc.

Certain expenditures were excluded from the tuition and fees cost base either because they pertain to non-instructional activities, or because their funding base is not state supported. Not included in the cost of education are the direct and indirect costs of research and public service activities, self-sustaining activities, summer programs, capital amortization costs, auxiliary enterprises (dormitories, etc.), financial aid grants, and student services financed from services and activities fees. Health Sciences costs are set out separately from other instructional costs but include their appropriate proportion of indirect costs.

Each institution analyzed its expenditures and, when available, categorized the expenditures based on source documentation for the truest distribution of costs. Reported expenditures for direct instruction, research, hospitals, and public service activities were based upon a proportion of faculty time derived from a faculty activity analysis. The faculty activity analysis was also used to assign instructional costs between academic and vocational programs, undergraduate and graduate instruction levels, and among discipline areas.

Indirect support expenditures were distributed by source documentation (e.g., payroll records, accounting records) where available, and in the absence of such documentation, the following allocation parameters were followed:

Program 090 - Plant Operation and Maintenance

Expenditures were allocated to all programs based upon assignable square feet. Within programs, the allocation was based upon the proportional share of total expense taking into consideration cost recovery mechanisms.

Program 080 - Institutional Support

All institutional support expenditures were allocated to all programs and related activities based upon the proportional share of total expenditures.

Program 060 - Student Services

Expenditures were allocated to the Instruction program and distributed among disciplines and levels based upon student credit hour distributions.

Program 050 - Libraries

Expenditures of general libraries were allocated to the Instruction, Research, and Public Service programs based upon each program's proportional share of the sum of student FTE's plus faculty FTE's. Costs of specialized branch libraries (law, medicine, business, etc.,) were assigned in whole to their respective discipline area.

Program 040 - Primary Support

Expenditures were allocated to Instruction, Research, and Public Service programs based upon faculty FTE distributions.

Branch Campuses

Washington State University:

In contrast to previous cost studies, the 1989-90 Cost Study provides information for Washington State University branch campuses. It should be noted however, that because of the allocation of WHETS expenditures, start-up costs related to new programs, and the limited enrollment overall and especially in some disciplines, costs at the branch campuses may not be typical of the main campus.

Consistent with the previous cost study, the costs of branch campus instruction has been combined with the main campus in determining per student cost amounts for WSU.

University of Washington:

Because the recently authorized University of Washington branch campuses were not in operation during the 1989-90 academic year, there are no entries in the cost study for those branches.
